Daitum's childcare solution combines the power of our advanced AI optimisation algorithms with a deep understanding of the sector. It has been crafted to provide a solution that specifically caters to the needs and challenges of childcare operations.

By providing optimised rosters for centre managers and educators, Daitum drastically reduces the time spent creating rosters, and eliminates the guesswork involved in managing staff ratios across the day. This gives your educators more time to focus on quality of service rather than worrying about compliance.

WHY CHOOSE DAITUM?

Not all optimisation is
the same

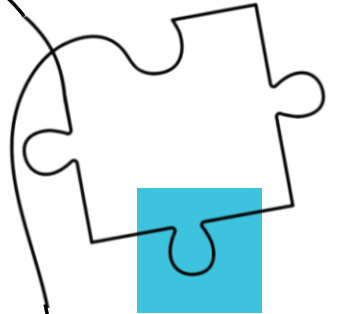

Daitum's software is powered by world-beating, industry proven, AI algorithms. It delivers solutions which are beyond the scope of human capabilities, while fitting seamlessly into all of your existing childcare management systems. The solution is quick to set up and works through the cloud, with a simple, Excel-compatible interface, and requiring minimal training.
